

**Invitation to the biannual**

**Workshop of  
Molecular Plant Breeding**

**and to the General Meeting of the  
German Society of Plant Biotechnology**

**05.-06. September 2019**

University of Applied Science Geisenheim

**- First Circular -**

**Dear colleagues,**

the German Society of Plant Biotechnology organizes a biannual workshop for Molecular Plant Breeding. This year, it will happen again! This year, the workshop is hosted by the University of Applied Science Geisenheim on the Rhine river. On this occasion, the annual general meeting of the Society of Plant Biotechnology also will take place. In a small circle of nice colleagues, current research projects in the field of Molecular Breeding can be presented and discussed. To underline the informal character of the workshop, ample time will be given for discussions and networking after the presentations, in coffee breaks, at the workshop dinner and during the poster session. We heartily invite you to actively shape this workshop with your contribution. The workshop is especially interesting for Ph.D. students, post docs and lab researchers who actually experience the ups and downs of biotechnological research in their daily work.

**We are looking forward to your contribution!**

Robert Boehm & Max-Bernhard Schröder

The following topics will be in the spotlight:

- **Genome editing via CRISPR/Cas**
- **Transformation- and regeneration systems**
- **Sequence analysis and development of Molecular Marker**
- **small RNAs and epigenetic regulation**

Of course, contributions from other areas of molecular breeding are highly welcome as well.

If you or any of your co-workers are interested in joining and contributing to the workshop, please register by filling out the last page of the circular, indicating the kind of planned contribution (oral or poster). The deadline for registration is **on 15th of April 2019**.

To open the workshop to an international audience, contributions can be made in either German or English language.

Workshop fees will be 10 € for Society members and 30 € for non-members, irrespective of student status. The fee can be paid on site in cash during the workshop.

Colleagues who are interested in a membership in the German Society of Plant Biotechnology are cordially invited to join the society via a registration form from our web page [www.pflanzen-biotechnologie.de](http://www.pflanzen-biotechnologie.de). Annual member fee is 50 €. Students are free upon proof.

## Preliminary program :

***Thursday, September 5th, 2019***

13:00 : Start of the workshop

17:00 : Poster-Session

18:00 : Annual general meeting of the Society of Plant Biotechnology

19:30 : Joint Workshop Dinner

***Friday, September 6th, 2019***

9:00 : Continuation of the workshop

13:00 : End of the workshop

The final program will be subject to the incurred contributions.

After the deadline, a second circular will be sent to all registered participants. This will contain the final program as well as detailed informations on the workshop and accomodation.

Take the chance -  
become a member and support the work of the

International Association of Plant Biotechnology

# Registration for the Workshop „Molecular Plant Breeding“ of the German Society of Plant Biotechnology e.V.

Deadline : 15th of April 2019

First and Surname :

Institute (Name and adress) :

Phone :

Email :

please tick :

I want to participate, however without an own contribution. Please send me the second circular.

I want to participate with the following contribution

an oral presentation

Title :

a poster

Title :

Date and signature:

Please fill out this mandatory registration and send by Email to

[r.boehm@pflanzen-biotechnologie.de](mailto:r.boehm@pflanzen-biotechnologie.de) or fax it to the number
